### Musical Notes

It never ceases to amaze me! The progress that our Strings students make between September and May makes me feel truly grateful to be teaching them. It's true that the power of a group of strings encourages rapid progress with each individual. As they reach towards the goal of their final concert of the year, I think about their year-long dedication to find the time to practice and return to class to learn yet another new song or technique. Their enthusiasm is refreshing! Thank you parents, grandparents and Strings Program supporters for your own dedication in making this happen!

We hope you will enjoy this concert which showcases both the traditional and classical tunes that turn out great violinists. The little movie theme at the end just had to be included for its timely nature! Plus, as a treat for all, we have for the first time a former Cherry Chase Strings student, Erica Buonanno, now an 11<sup>th</sup> grader, performing the beautiful and challenging Saint-Saens Rondo & Capriccioso on violin. Everyone will be inspired. Enjoy the Concert!
